Reporting Change

As of 10/01/08 the Commission started an initiative to become paperless by moving to electronic submission and processing of all claims. The existing system and the new EDI system have different requirements and as such a different set of data elements. As we move towards our goal of becoming paperless, this report will be split between the two disparate systems, and as such in two distinct reports. The report marked for the period of "10/1/08 to 12/31/08" will include those claims filed electronically, having accident dates within that period. The report marked "Part A" contains information entered into our "Legacy" system for the entire year 2008.

Because the EDI initiative is occurring in stages, a single claim may be entered (and counted) by each of the systems. This redundancy is limited to accidents that occurred on or after 10/1/08.

Please feel free to comment about the new format, making suggestions that would make this report more useful. Where the data is available we will make all attempts to publish it in a format that you should find useful.

Make suggestions and comments to VWC.Reports@vwc.state.va.us

Explanation of Terms

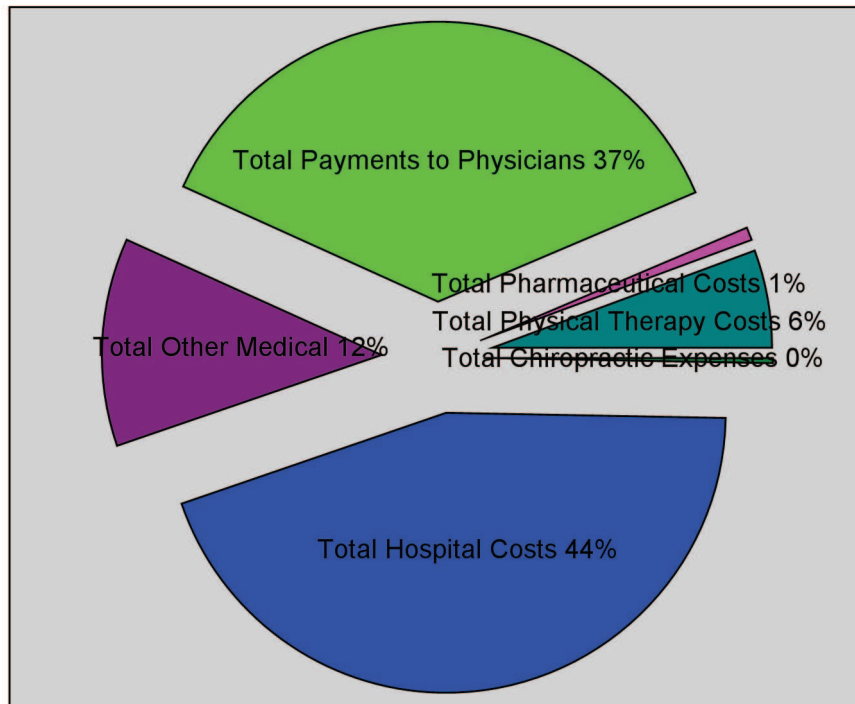

New Files	Those files sent to the Commission between October 1 and December 31 as a "major" claim. Major claims are defined as claims that result in compensatory payments or disputed benefits.
Awards Entered	The number of files with one or more awards entered from October 1 through December 31. This is a file count rather than an award count since a single file may have multiple awards processed during the year. Judicial awards are included in this count.
Awards Terminated	The number of files with at least one award terminated from October 1 through December 31. This is a file count since a single file may have multiple awards terminated during the year. Note that the award terminated may have been entered in a prior year. Judicial awards are included in this count.
Other Medical	This category includes those items not specified in the other columns.
NEC	"Not Elsewhere Classified." Information that does not conform to the listed categories.

Other Notes

Medical Payments	While the Virginia Workers' Compensation Commission makes every effort to ensure accurate statistics, however, this data should be used knowing that it is only as good as reported. The Commission is continuing to upgrade data in general.
Compensation Payments	Information on compensation paid is based on awards terminated, and does not reflect the amount of compensation currently being paid.
